COMMENCEMENT OF WHIRLWIND Y. M. C. A. CANVASS

In Aid of Work at Home and of Field Branch.

J. W. ROSS THE SPEAKER.

Final Arrangements Made at Supper Held at Strathcona Hall Last Night.

To-day will see the commencement of the three days' whirlwind financial campaign in aid of the McGill Y. M. C. A. and its Field Branch in France. Last night the final arrangements were completed when about seventy students gathered for supper at Strathcona Hall, and later heard from the secretary the plans for the coming campaign.

After supper the chairman, H. R. Morgan, called upon E. A. Corbett, general secretary, to outline the plan of campaign. Before going into details Mr. Corbett told of how in the past the field branch had received its main support from graduates of McGill living in the States, several men giving regularly as much as a hundred dollars. The speaker also told of how one man living in the Southern States gave ten dollars a month, which was to be sent to the Field Branch to help buy tobacco for the boys. Continuing Mr. Corbett showed that it required \$100 a month to run the Field Branch, and as this money had to be produced from around McGill, he desired that the men present should accept the responsibility of this canvass and do their best to make it a success. Mr. Corbett then explained some of the minor details of the canvass.

The chairman then called upon E. M. Busby, who has seen service in France with No. 6 Field Ambulance, to tell about the work of the Y. M. C. A. behind the lines. The speaker showed how at every base camp, and billets, and even just behind the first line trenches the Y. M. C. A. was to be found serving the men in various ways, and helping to make their lot a happier one by the holding of concerts, etc. The buildings of the Y. M. C. A., which generally consisted of huts and sometimes marquees, were filled every night with men writing letters, enjoying the music or spending their time in the canteen. So popular had the Y. M. C. A. become that the Belgian beer gardens had had to close up shop.

H. A. DesBrisay, who has seen service with the McGill Hospital, also spoke of the great service which the Y. M. C. A. is rendering overseas, and especially that of our own Field Branch, which is doing excellent work with the McGill Hospital.

The chairman called upon Mr. J. W. Ross, one of the governors of the University, to give those present some hints regarding the campaign and also to tell about his trip to England and France, where he visited all of the Canadian Y. M. C. A. centres. Mr. Ross gave the history of whirlwind campaigns, telling how successful they could be made if only the canvassers were willing, and if they had a worthy object. In this case he said that he knew the men were willing, and that the object was worthy. He went on to say how the Y. M. C. A. had been sending out beams of helpfulness for many years past, and when the war broke out the McGill Y. M. C. A. had sent across to France a branch which was there helping the men in many ways.

The speaker went on to tell of his visit to England and France. He spoke of the Canadian camps in England, of their great extent and of the number of men stationed there, and of the work of the Y. M. C. A. in these different camps. The speaker congratulated the British Y. M. C. A. on the manner in which they had arisen to the needs of the army, showing how that institution had raised over four million dollars to carry on the work in some fifteen hundred places. The British Y. M. C. A. had erected huts for the use of the Canadian branches. The speaker told of his trip, in which he visited every one of these huts. In every instance he found the tents crowded. At some there were concerts in progress, being given by travelling groups of actors who were giving their time to such work; at others the men were intent upon writing letters; and at some evangelistic services were in progress. Mr. Ross also spoke of the great work being done by the secretaries in helping the men.

Continuing, Mr. Ross spoke of his trip to France, and of the great work of the Y. M. C. A. there. At the last the secretaries going across were only allowed to take one trunk with them. This trunk contained the writing materials, etc., which were to last a week. Now, however, the Canadian

(Continued on Page 4.)

IN CANADA ON LEAVE.

LT.-COL. J. G. ADAMS.

Lt.-Col. Adams, Professor of Pathology, has returned to Canada on leave from Medical Headquarters in London, where he has been stationed as one of the officers in charge of the medical history of the war. From snapshot taken on shipboard.

McGILL BATTERY AT EMOHOTT CAMP NOW.

Information which has reached McGill Daily from a former member of the editorial staff now serving in the McGill Overseas Battery is to the effect that the battery, which is now known as No. 271 (Canadian) Siege Battery, is stationed at Emohott Camp, near Farnham, Surrey, England, undergoing further training. The McGill Battery is with the Royal Garrison Artillery and brigaded with Imperial units in an artillery camp, where the guns are rather small, but very historic, some of them having been through Mons, Hoge and Ypres. The battery was about to commence digging-in instruction when the letter was written, half the battery then being on six days' leave. It is the only Canadian unit in camp. Major W. D. Tait, the O. C., Capt. Cyrus Macmillan, and Lieut. Kimball Keeling are at Emohott taking a course in siege artillery, and upon their return the other subalterns of the unit will take up the same work.

NAUGHTY QUERY WAS ARGUED BY EMBRYO LIGHTS

Justice Greenshields Presided at First Moot Trial.

CASE TAKEN "EN DELIBERE."

The Law Common Room Was Well Filled With Prospective Legal Lights.

The first of the Moot Trials to be held by the Undergraduate Society of the Law Faculty, took place in the Common Room of the Law Chambers last night. The trial was in all respects a great success, and will no doubt be the forerunner of a series of similar evenings.

The Court opened sharp at 8.30 p.m. with Mr. Justice Greenshields on the Bench. The subject of the trial was stated by the Clerk of the Court as follows:—

"A," a French subject, resident in Paris, marries in Paris "B," also a French subject, and also resident in Paris. They lived together for a number of years in Paris, and then removed to Montreal, without any avowed intention of abandoning their French domicile or acquiring a new domicile in the Province of Quebec. "B" takes an action before the Superior Court of this Province, praying that she be declared separate as to bed and board, from "A."

Query—Has our Court jurisdiction to grant the prayer of her action?

Those chosen to act as Counsel were the following:—

For Plaintiff—Messrs. Rose, Phillips and Cloutier.

For Defendant—Messrs. Myerson, Dillon and Bridgeman.

(Continued on Page 2.)

SCIENCE TEAM EASILY BEAT ARTS PLAYERS

Shut Them Out With Score of 29 to 0.

WEIGHT COUNTED GREATLY.

Science Had a Far Heavier and More Experienced Team Than Arts.

Science overwhelmed the Arts team at Canadian Rugby yesterday, when they took them into camp for a shut-out of 29 to 0. Science had acquired all kinds of pep since their bad defeat by Medicine last Wednesday, and showed much more inclination to get into the game and fight than heretofore. The Arts team, too, were a much improved organization from the one that tackled the Meds. in their first game of the season, and played a hard game, but their lack of weight was too great, and they were unable to pierce the Science line. At all times, the play was clean, both sides holding their temper well, and very little objectionable tackling cropping up. Arts tried to force things on several occasions near the first of the game, but their line plays were ineffectual. A few of their outside plays were rather good, but the Science men broke through the weak Arts line and nipped the greater part of them in the bud. There was no opportunity to pick out any outstanding star of the Arts team, as so very few of their plays got very far along. Science, on the other hand, had things pretty much their own way right from the start, running the ball across for the first score in remarkably short time, and digging in for all they were worth. Smith made some very clever runs through holes that were hard to miss. Eric Cushing made a fine run, the most spectacular of the game, in the third quarter. He evaded several tackles in remarkable manner. He repeated on the next play, and crossed the line. Scott played his usual very consistent game, kicking and catching well. The Science line as a whole, had learned the knack of blocking a greater extent than previously, and this relieved the backs of a good deal of hard work. Charlton was a fine man on the backs, holding his feet well, while Wickenden, in quarter, gave a very creditable exhibition. Fowler was good in the back line.

The game started with Arts kicking off to Science, Science running the ball back into Arts territory. On the third down, Scott kicked, Myerson, receiving the ball and being downed for a fumble. Score, 1 to 0 for Science. Fowler scored from a series of bucks that brought the ball into dangerous territory. Scott failed to convert. Score, 6 to 0. Quarter time was called with the ball in Arts' territory again. Science started down the field again at the whistle, and Allan Clark crossed for another touchdown after receiving an inside kick. Science was making downs every time without kicking. The ball went into Arts' territory for the first time in the game for any extended period. They were forced to kick on the third down and Scott carried it into Arts' territory. The ball went to within a few yards of the Arts' line with great gains through the line, the whistle finally saving what seemed to be a certain touchdown. Score at half-time was 11 to 0 for Science. Science adopted the same tactics in the second half, working the line and end plays alternately, and to much better advantage than in the first half. Charlton was sent through for some good gains, and went across for a touchdown in the first few minutes of play. Scott converted. Science score was 17. It was at this period that Cushing made his fine run, and brought the ball very close to the Arts goal, taking it over on the next play. Scott converted. Score 23 to 0 for Science. In the last quarter, Science eased up and played a much more open game. The ball was near centre field in Science territory at the beginning of play. Arts lost the ball on downs, and Science started their march down the field again. Within the next few minutes, Science crept up to within the last five yards of the goal, and Wickenden fooled the whole Arts team, going over without having any opposition. This was not the first of his gains, made by headwork. Arts and Science agreed to call it a game at this point, as the grounds were so dark that it was practically impossible to see the ball.

Fabe Poulin, of Medicine, refereed. A very small crowd were out. The weather was ideal for football. The lineups were:

Arts	Position	Science
Taylor	... Flying Wing	... Clark
McLellan	... Right Half	... Fox
Clark	... Centre Half	... Scott
Myerson	... Left Half	... Fowler
Chisholm	... Quarter	... Wickenden

(Continued on Page 4.)

ARTS AND LAW GRADUATE RECEIVES MILITARY CROSS FOR GOOD WORK WITH CAPE'S SIEGE BATTERY UNIT,

According to unofficial advices which have been received by relatives in the city, the Military Cross has been awarded to Lieut. Rennie Ogilvie McMurtry, Arts '05, Law '08, for distinguished conduct as officer in charge of observation duties. Lieut. McMurtry is serving with the 107th Canadian Siege Battery, formerly No. 3 Canadian Siege Battery, commanded by Major E. G. M. Cape, Sci. '98, a unit which has made a splendid name for itself in the recent fighting in the Somme theatre of operations. Lieut. McMurtry was a member of the McGill contingent, Canadian Officers' Training Corps when he took out a commission in the battery to which he has since been attached. He was a member of the legal firm of Brown, Montgomery and McMichael in the city, and resided at 28 Tower Avenue.

Lieut. McMurtry comes of a military family, several members of which are on active service. Recent advices tell of the continued good work of the 107th Battery, it being stated that it is now so busy that the battery is working in the open and pounding away at the German trenches.

EVERYWHERE WHY?

MURAD CIGARETTES

Ten for fifteen cents.

FINEST QUALITY

SOON he'll be off for the trenches "Somewhere in France." How intimately the gift of a wrist watch will remind him of those at home, particularly if it is a Waltham Military Wrist Watch. As manly as a bull terrier or a briar pipe, and just as sturdy to withstand rough usage. Has its own armor plate that keeps the crystal from breaking. Should the crystal meet with mishap the protecting device keeps the Waltham in regular use until such time as a new crystal can be secured. The Waltham Military Wrist Watch possesses the same degree of accuracy that has made the "Waltham" the timepiece of the world. Can be had in seven or fifteen jewel grade at \$12 or \$15. Your jeweler will gladly show them to you. Write for the booklet "Concerning a Timepiece."

THE Y. M. C. A. FINANCIAL CAMPAIGN.

Last night upwards of 90 men gathered at Stratheona Hall to initiate a three days' campaign for subscriptions to the work of McGill Y. M. C. A. at home and abroad. There may have been a time in the history of the Y. M. C. A. when it could be said that this particular movement had drawn the lives of its membership and its interests so closely that it appealed only to a limited class of men who were given to religious discussion and a kind of dyspeptic piety. But if there ever was such a time it has passed in the upheaval of this world war.

When war was declared in August, 1914, this organization sprang into the field with a staff of trained workers, and within SIX months it was found that wherever troops were mobilized in France, India, Africa, Great Britain, Australia and Canada, there the Red Triangle had established its Ministry of Mercy. From the beginning of this war to the present moment the Y. M. C. A. has recognized no distinction of Class or of Creed, Barbarian and Scythian, bond and free, have received the same kindly treatment, the same willing help and cheer. It is worth while noting the appreciations of the great leaders of the Empire:

LORD KITCHENER.

"From the first the Y. M. C. A. gained my confidence, and now I find they have earned my admiration and my gratitude."

THE PRIME MINISTER, MR. ASQUITH.

"You will have a moving tale to tell wherever you go of the benefits which the Associations have conferred upon the Army at the front, and in this country, by providing soldiers with comforts and recreation, and something of the atmosphere of a home. I take real pleasure in contributing my testimony to the high estimation in which their efforts are held by His Majesty's Government."

FIELD-MARSHAL VISCOUNT FRENCH.

"This war has demanded more in the way of nerve and courage than any in the past, and one cannot help thinking that the magnificent courage which has been shown is to be traced to the work of such institutions as the Y. M. C. A."

WILL CROOKS, M.P.

"The Y. M. C. A.? Why, they could no more do without the Y. M. C. A. than they could do without munitions at the front!"

LONDON SPECTATOR.

"No help is more efficient than that rendered to the soldier by the Y. M. C. A."

HIS MAJESTY THE KING.

"His Majesty congratulates the Association on the successful results of its war work, which has done everything conducive to the comfort and well-being of the armies, supplying the special and peculiar needs of men drawn from countries so different and so distant. It has worked in a practical, economical, and unostentatious manner, with consummate knowledge of those with whom it has to deal. At the same time the Association, by its spirit of discipline, has earned the respect and approbation of the Military Authorities."

Whoever it was who conceived the idea of organizing a Field Branch to go with the McGill Hospital must be credited with a far-sighted policy. For as Colonel Birkett remarked when in Montreal last spring, "Nothing has done more to preserve the morale of the Hospital than its well-equipped and thoroughly efficient Y. M. C. A. Its service is not confined to the men at Boulogne, but it sends weekly parcels to different units of McGill men."

If there were no other activities than this splendid service abroad McGill Y. M. C. A. would still be worthy of the support of every student in the University, for the work it does among the students. But there are few men at McGill who do not use Stratheona Hall and take advantage of its attractions. If the work is to be carried on without a deficit this appeal must meet with a generous response.

Let McGill men rally to the support of their own institution and show in the next three days that the men at home are ready to share in this way the sacrifice of the men in Flanders.

EDITORIAL NOTE.

A lamentable condition of affairs has arisen in regard to the patronage afforded the lunch room at the Union. Those of us who have eaten there can testify to the high quality of the food served, and the cleanliness noticeable in every department of the service. Every reason which might have existed in former years for one not taking his meals at the Union was done away with when the new catering service was instituted this year. When the session opened the attendance at the dining room was gratifying indeed, but lately there has been a smaller and smaller number of students eating at the social centre of the University. One is at somewhat of a loss to account for this, particularly in view of the considerations mentioned above. Why students cannot patronize their own eating-place where every facility is offered for their convenience seems difficult to comprehend. The old days of the famous Henson's pigging-it-at-the-Union have passed, let us hope never to return, and with their passing there should come a much more representative showing on the part of the student body.

FLAG AT HALF MAST.

Lieut. Walter H. Gordon, Arts '09, killed in action, was treasurer of the McGill Y. M. C. A. in one year of his college course, and the flag of Stratheona Hall was flying at half mast yesterday in his memory.

MACDONALD MAN MARRIED.

The marriage of Miss Ethel J. Paul, daughter of Mr. and Mrs. Thomas J. Paul, Bryson, Que., and William Everett Nellis Hodgins, son of Mr. and Mrs. E. T. Hodgins, Shawville, Que., was celebrated in St. Andrew's Church, Bryson, on Wednesday last. Mr. Hodgins was a member of Agriculture '17, and was Macdonald representative on the 1917 Annual, besides being connected with the Macdonald College Magazine.

SCHOLARSHIPS IN ARTS.

The Third year scholarships in the Faculty of Arts have been awarded to Miss Bessie Stamm and Miss Salie Solomon, according to an announcement issued by the office of the Dean of the Faculty. These scholarships are to the value of \$75 apiece. Miss Stamm took her scholarship in Latin and German, and Miss Solomon in French and German. Miss E. C. Monk has won the First year exhibition (value \$60) in French, German and English.

MACKENZIE EXHIBITIONS.

The Mackenzie Exhibitions in the Department of Economics and Political Science to the value of \$150, has been awarded K. P. Tsolainos, Arts '18, according to an announcement of the Dean of the Faculty of Arts.

RAILWAY CLUB AT UNION.

There will be a meeting of the Railway Club at the Union this evening at 7, for the purpose of revising the constitution and discussing the trips. The meeting will be held in the Grill Room, where the members will have dinner. The first trip will be held on Saturday, when the club makes the popular Frontenac excursion. Tickets are about to be placed on sale by the members.

AT THE THEATRES

THE PRINCESS.

Mr. Robert B. Mantell comes to Montreal again playing better than ever. Taking the part of "Shylock" in "The Merchant of Venice" at the Princess last night, Mr. Mantell rendered in a masterly fashion Shakespeare's best comedy. As Shylock he was given most hearty applause, commencing on first appearance in the second act, and prolonged throughout the remainder of the play.

Mr. Mantell held his audience in rapt attention at all times. His speech to Antonio commencing, "Oft in the rials you have rated me . . ." was the first occasion where Mr. Mantell was able to bring forth his powers of impressiveness of speech and of expression. Then again, in the fourth act, depicting the court of justice in Venice, Shylock was superb. While at all times Mr. Mantell played his part with equal effectiveness, these two portions of the play allowed the greatest scope for him to work.

One man, great as he may be, cannot make a play worth while. Mr. Mantell is ably supported throughout by a most capable company.

Portia undoubtedly excelled all others, and she came in for her just share of applause. While the scene in a room in Portia's house made a pleasing beginning, it must be said that Miss Hamper was at her best in that wonderful speech, "The quality of Mercy is not strained," which takes place in the court scene.

Jessica, the runaway daughter of Shylock, and Lorenzo, her lover, and later husband, added the pleasant relief which is always necessary. Nerissa, with her sudden marriage, acted similarly in the later part of the play.

Launcelot Gobbo, playing the part of the comedian, upheld, in an admirable manner, what is intended to be the lighter side. Bassanio, the suitor to Portia, and his friend Antonio, the merchant, on whom the plot was surrounded, fulfilled all that was required of them, but no opportunity for exceptional brilliancy falls to their lot.

A delightful bit of good humour was that enacted in the final scene. This choice, but rare presentation, is something not frequently seen, but it lends a vivid contrast to what one has become so accustomed to meet with.

The scenery is most luxurious, and the costumes grand in their splendor and correctness, very immaculate. Lovers of Shakespeare, and all who appreciate good acting should take advantage of seeing the master, now playing.

THE IMPERIAL.

A film of unusual interest is being shown the first few days of this week at the Imperial Theatre, "The Rainbow Princess." It is one of those dramas in which one becomes interested in spite of some rather obvious impossibilities in the plot. Perhaps, for that reason, rather than in spite of it, the film holds the attention. It does not attempt to clear up all the questions in the plot in the last few minutes of the play, but, instead, leaves the audience to clear up some points as they will, leaving the action open to a more free and less complicated conclusion. In the first place, Ann Pennington makes one of those out-of-the-ordinary heroines. As "Hope," it cannot be said that she appears to be of unusual beauty, but she certainly appears a very human little screen person, who is not a "doll," nor does she have any affectations to encumber her acting. As a dancer, she is unique in her Hallowell dance, and grace extraordinary accompanies her every movement.

The plot of the film is simple, as films go, though many of the scenes were extraordinary. The "thrilling" balloon ascension and parachute scene, together with several circus "stunts" locally acted out, give zest to the first scenes. Something new in rescue was also featured. In descending in a parachute, Miss Pennington falls into a small lake, the parachute dropping over and around her, holding her under water, entangled in its folds. The hero very gallantly, happening to be nearby, rescues her. The rescue is not very obvious, as the water was hardly deep enough to swim in. Otherwise, the film was a happy mixture of the serious and ludicrous, and certainly very pleasing.

The Weekly had the usual run of military reviews, and in addition, Friday's review of Montreal soldiers on Champ de Mars, and the New York Pipe Band's procession, also of last week. "But" Fisher's "Mut and Jeff" animated cartoon was a welcome feature, as usual, principally as a relief from the monotony of the Weekly. "A Seminary Scandal" had a few original features, but was rather stereotyped, following the "Love triumphs over an irate father's will" type. It had some very good comedy. This performance was materially aided by the Orchestra under the direction of Mr. Hoffman.

HISTORICAL CLUB.

There will be a special meeting of this club to-day in the Smoking Room of the Arts Building at 1 p.m. Business very important.

(Continued from Page 1.)

Following were the officials of the Court:—
Clerk—M. Lalonde.
Crier—F. Bowles.
Stenographers—Messrs. Healy and Kelly (of the First Year).
These rules of practice were observed:—

1.—That the members acting as Counsel and all officials requiring them, appear in gowns, each one procuring his own.

2.—That the Counsel confine their arguments to fifteen minutes; First Junior Counsel to ten minutes; Second Junior Counsel to five. The Counsel for plaintiff will be allowed Plaintiff, opened his argument by briefly and clearly outlining the es-

five minutes for rebuttal.
E. A. Rose, senior counsel for the plaintiff, upon which the case hinged. He maintained that the Quebec Court was capable and competent of disposing of the case, despite the fact that the domicile of A and B is in France. The learned counsel strongly supported his assertions by reference to various similar and parallel cases, and to the Civil Code. He submitted that in like cases confined merely to questions of property the Canadian Courts would have no jurisdiction, and the matter would fall within the sphere of French Law; but he argued that in the case of men and wife it was without doubt essential to justice that the latter should be pro-

ected from repeated outrage. The speaker went on to point out the impracticability of applying French law to the case, since French law and Canadian law were in many instances incompatible. The Judge, however, here interrupted the speaker and pointed out that he was unconcerned what jurisdiction had Canadian law with the French law, the point being over the case in hand. The speaker then interpreted Art. 96, C.P., and pointed out that it gave the Court jurisdiction wherever it was in force. M. H. Myerson, senior counsel for the defendant, immediately attacked the wife would be prevented from

The Royal Military College of Canada.

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government Institution, designed primarily for the purpose of giving instruction in all branches of military science to Cadets and Officers of the Canadian Militia. In fact, it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial Army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition. Commendations in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario, it obtains the same exemptions as a B.A. degree.

The length of the course is three years in three terms of 12 months each.

The total cost of the course, including board, uniform, instructional material, and all extras is about \$500.

The annual competitive examination for admission to the college, takes place in May at each of the headquarters of the several military districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont., or to the Commandant, Royal Military College, Kingston, Ont.

Many graduates owe a large measure of success to our glasses, which made their vision clear and their studies a pleasure.

MACDONALD COLLEGE BRANCH OF C. O. T. C. LOOKS FORWARD TO A SUCCESSFUL YEAR

Major F. C. Harrison Still in Command of the Unit, with Lieut. A. N. Shaw as Second in Command—Qualified Officer Acts as Company Sergeant-Major—Sergeant-Major R. Werry is to Instruct the Contingent—Lance-Corp. J. H. McCormick Dies of Wounds—First Open Meeting of the Literary and Debating Society is Held—Athletics at "Mac."

The Macdonald College Canadian Officers' Training Corps was organized by Major F. C. Harrison, Principal of the College, in the fall of 1914. Major Harrison, as his rank would indicate, assumed command of the corps, and did his utmost despite the difficulty in obtaining rifles and other requisites for bringing the unit to the same state of efficiency as that found in neighbouring corps where more capable assistance was available.

Like all other Canadian Officers' Training Corps, the Macdonald College C. O. T. C., was organized to make it possible for the students and all others interested to obtain either an "A" or a "B" certificate. The "A" certificate, which is the one most sought, qualifies one as a lieutenant.

During the first year (1914-15), the authorities were unable to obtain uniforms, and all drill was in civilian dress. During the second year, uniforms were furnished by the Militia Department, and the drill progressed much more quickly. More drills were given during the first year than in the second, and the men had mastered the rudiments of the drill book. In this way it was possible to advance from indoor rifle drill to outdoor platoon and company movements.

This year, the third, everything gives promise of a very successful year for the corps, especially as compared with what has been done in past years. During the summer those men, staff and students alike, who remained at the College, organized themselves as a small unit, and were drilled by Lieut. A. N. Shaw, also of the College staff. That these men accomplished a great deal during their spare moments in the summer is made very evident now when the drills have once more begun.

In addition to taking these drills just mentioned, Messrs. M. A. Jull and A. R. Ness spent a month at Valcartier, attached as lieutenants to the 71st Battalion, and Mr. A. E. McLaurin qualified as instructor in physical training and bayonet fighting, after taking a twenty-one day course at Camp Borden. Now, with these and with others of the staff, together with members of the faculty and with some of the students who had previously fitted themselves as officers and instructors, the work of the C. O. T. C. goes steadily forward.

Although the number of men in the unit was larger in previous years than it is this year, yet, because all who are enrolled attend regularly, the average attendance will not be much less than in former years. When one realizes that there were more men in the Freshman class when the corps was organized than there are in the whole student body this year, he can readily understand why so many less are enrolled. The organization of the unit is essentially the same as formerly, and the staff is arranged as follows:

Officer Commanding—Major F. C. Harrison.

Second in Command—Lieut. A. N. Shaw.

Platoon Commanders—Lieuts H. Barton, M. A. Jull, A. R. Ness.

Officer in charge of musketry instruction—Lieut. H. S. Hammond.

Officer attached to Corps—Lieut. C. Spicer.

Instructor in physical training and bayonet fighting—Sergeant A. E. McLaurin.

Non-commissioned officers—C.S.M. Cunningham; Sgts. R. Summerby, Q.M.S. McPhee.

Mr. Cunningham is a qualified lieutenant, but has very kindly consented to act in the capacity of company sergeant major.

With such a staff of officers and instructors, the staff is going ahead much more rapidly than in former years. Major Harrison, who has been actively engaged all summer as Assistant Adjutant General at Petawawa, has just returned, and his valuable direction will soon be felt. This year the drills, lectures, etc., are scheduled as follows:

Monday, 4.45 to 5.30—Physical training and bayonet fighting for 3rd and 4th years and staff.

Monday, 4.45 to 5.45—Musketry instruction for 1st and 2nd years.

Monday, 6.55 to 7.55—Drill for the whole company.

Tuesday, 4.45 to 5.45—Musketry instruction for 3rd and 4th years and staff.

Tuesday, 4.45 to 5.30—Physical training for 1st and 2nd years.

Tuesday, 7.00 to 8.00—Lecture (voluntary attendance), "A" and "B" certificate requirements.

Wednesday, 3.00 to 4.30—Drill for whole company.

Saturday, 8.30 to 9.15—Lectures on "A" certificate requirements.

The corps has been fortunate in obtaining, from the Headquarters Staff of Militia District No. 4, the services of Sergeant-Major R. Werry, formerly of the McGill C. O. T. C. A special course for musketry instructors was given by Sgt.-Major Werry, and as a result of this work thirteen members of this unit have qualified as "Instructors in Elementary Musketry."

In conclusion, it would seem fitting to mention that one who was an earnest member of the corps while he was with us has given his life in defence of the cause which we all know to be just. We refer to Lance-Corporal J. H. McCormick, of Agr. '15, who very recently died of wounds received when under heavy artillery fire. His chums, and ours, are fighting still. It surely behoves us at home to further with all our powers all movements aiding our comrades in putting an end to the struggle which has already made unspeakable havoc among the best we had to offer.

"Lit." Society Meeting.

The first open meeting of the Macdonald College Literary and Debating Society was held in the College Assembly Hall, on Thursday evening, Nov. 2nd.

The College Literary Society has always played an important part in the development of the aesthetic side of

college life. Besides being of considerable educational value, the "Lit." meetings are a source of splendid recreation, and make the social life at college much more attractive.

As a rule the meetings take the form of a debate, elocutionary or public speaking contest. However, general programmes, in which those with musical talent are in the foreground, are sometimes held. Such was the character of our first meeting.

Mr. Cunningham, Agr. '17, president of the society, acted as chairman. He does not believe in orations from the chair, so confined himself to a few brief remarks, and then announced the programme of the evening, which consisted of:

Organ Solo Mr. Stanton.
Vocal Solo Miss Black.
Piano Solo Miss Rexford.
Vocal Solo Mr. Buckland.
Recitation Miss Whyte.
Violin Solo Miss Reynolds.
Vocal Solo Miss Lovett.
Organ Solo Mr. Stanton.

The talent displayed by all those taking part was of a high order, and it was appreciated by the audience, who heartily encored every number.

All those present spent a delightful evening, but the success of the meeting must be attributed largely to the talent and efforts of the girls across the campus, who were the chief participants in the programme. The boys were very much in the minority, but we feel sure that they will make good at future meetings, when debates and orations are in order.

G. E. A., '18.

SPORTING NEWS.

Soccer Football.

A series of three interclass soccer football games are to be played each year by the students in Agriculture for the P. A. Boving Cup. The first game of this series was played on Saturday, November 4th, between the Sophomore and Freshmen classes.

The afternoon was favorable for a good fast game, and the boys turned out in good spirit. The game was called at two o'clock, and two halves of forty-five minutes each were played, with a ten minute intermission.

The kick-off was made by the Sophomores. The first half was fairly fast, keeping the ball in the centre of the field most of the time. Near the finish of the first half a foul was made by one of the Sophomores, and a penalty kick by Millichamp of the Freshmen got the first goal. This made the game more interesting, as both sides took a better grip and made the finish much faster. The first half finished in favor of the Freshmen.

The second half started fast, and continued to be so right through to the finish. The rooting from the sidelines was in favor of the Freshmen. The two teams were evenly balanced, and both played a hard game. A second goal was made by a penalty kick by the Freshmen. The game finished in favor of the Freshmen with a score of two to nothing.

The second game of the series will be played between the Junior and Senior classes and the winners will play the Freshmen for the cup.

W. A. M., '19.

Basketball.

The first game of the season in this line of sport was played on Saturday evening, November 4th, between the staff and the students. It was a fairly fast game all through, the students especially showing good form, considering that they had had only one practice to date. The resulting score was 33-12 in favor of the students.

MACDONALD COLLEGE GLEE CLUB.

The first meeting of what was to be the Macdonald College Glee Club, was held in Room 27, Main Building, on Wednesday, Oct. 25th, with Mr. G. A. Stanton, instructor of music for the College, in the chair. As the number present were nearly all of the fair sex, the matters of business connected with the formation of the club were postponed until the next meeting, which was called for a week later. After the practice at this meeting, the organization of the Club was proceeded with. Mr. Stanton called for nominations for the position of a general Secretary-Treasurer, and Mr. A. J. Buckland, '18, was elected to the post.

At the next meeting each one of the sections will choose a Secretary-Treasurer for themselves, and these will all act under the management of the general Secretary-Treasurer.

Mr. Stanton has also brought about the formation of a Students' Orchestra, which meets at the same place, on Tuesday evening of each week. We are particularly fortunate this year in having with us such a large amount of musical talent, and this of no mean order, as witnessed by the excellent numbers rendered at the various meetings of the student body held thus far this year. Hence, many enjoyable evenings in the near future are being looked forward to by all.

G. C. C., '19.

THE GIRLS' MASQUERADE DANCE.

On Friday, Nov. 3, a very cosmopolitan crowd gathered in the girls' gymnasium for the annual girls' masquerade dance. All the decorations were cleverly carried out in Hollywood style. The big electric lights shone through glaring faces; weird witches and hideous pumpkins grinned at us from all corners of the room, while two tall ghostly figures stood as sentinels at the door.

The week before the dance had been one of wild excitement, for mysterious, bulky bundles had been arriving at the post office. Secret conferences had been held in many rooms at dead of night, around sputtering candles. While everywhere girls had

futtered little white slips of paper exchanging waltzes and gavottes.

But at last the night came! We were graciously received by Miss Stewart, and the presidents of the various years. Then what a sight met our eyes! Fairies and butterflies chatting with dashing men in white ducks. Two very cleverly disguised Gold Dust Twins flitted in and out among stately ladies, gypsies, and Indians, while a bewitching little Kewpie quite captivated all our hearts. A happy old gentleman with a rather angular face created considerable comment and amusement. Being rather old and feeble, he did not dance a great deal. But the old chap lounged back comfortably against the wall, and flirted desperately with all the pretty girls; while his wife sat bobbing under her pike bonnet, agreeing with everything he said and did. It was not until the end of the evening that they were discovered to be wives of the College professors.

Then the "boys" began to look for their partners, for the music struck up, and the Grand March began; and soon this great assemblage of nurses, clowns, and cavaliers—all mingled in a whirlwind, happy throng. One of the unique features of this dance was that the gentlemen were very reticent about removing their hats; in fact it was a la vogue for them to keep their heads covered.

The prize for the most original boy's costume was won by Miss D. Grant, who had very cunningly draped two steamer rugs into a quaint Scottish costume. A charming ballet dancer, Miss F. Buzzell, won the girls' prize, while a special prize was given to the mysterious, Jolly Gold Dust Twins.

However, all good things must end, even masquerades. So after the notes of "Auld Lang Syne," and "God Save the King" had died away, "Good-byes" were regretfully said.

AMUSEMENTS.

An illustrated lecture on Forestry will be given by Mr. Robson Black, Secretary of Canadian Forestry Association, Ottawa, in the Assembly Hall on Tuesday, Nov. 7th, at 7 p.m.

The Canadian Manufacturers' Association has offered two cash prizes of \$25 and \$15 for competition amongst the students of the Faculty of Agriculture, to be awarded to the authors of the best two essays on any one of the following subjects:

- (1)—Raising of Horses for City Work.
- (2)—The Wind Industry.
- (3)—Public Ownership of Telephones, Telegraphs, and Railways.
- (4)—Participation by British Colonies in "Favored Nation" treaties between Great Britain and Foreign Countries.

The essay must consist of about 3,500 words, and must be submitted before Feb. 1st, 1917.

PATRIOTIC DANCES.

The students of Macdonald have undertaken an unique way of raising money to provide Xmas boxes for the boys at the front. The sum of two hundred dollars is necessary to supply these gifts. Various schemes were suggested, but it has been decided to hold a series of dances. The girls here at the College outnumber the boys three to one. Therefore we must hold three dances. These dances are to be informal affairs, beginning at 7.30 and lasting until 10 p.m.

The first of the series will be held on Nov. 11th; the others at successive periods of two weeks from this date. Beside the student body, it is expected that the staff, faculty and teachers will aid us in securing the required amount of money. A minimum rate of twenty-five cents for girls, and fifty cents for boys, has been decided upon. This arrangement leaves guests open to contribute as much over these amounts as they may feel disposed.

With such a scheme, spread over a period of six weeks, we expect results it will enable us to raise the money. It will give us the maximum amount of pleasure at a minimum expense. It will fulfil its object, it will provide pleasure and comforts for the boys in the trenches.

—T. H., '17.

Mr. and Mrs. Thomas Paul have the honor of announcing the marriage of their daughter Ethel Jean to Mr. W. E. Nellis Hodgins, Agr. '17, on Wednesday, November 1st, 1916, at St. Andrew's Church, Bryson.

BASKETBALL AT R. V. C.

With the close of the Tennis Tournaments at the R. V. C., the basketball season has commenced. On Wednesday afternoon, at two o'clock sharp, the first matches in the inter-year series will be played off—Seniors vs. Juniors, and Sophomores vs. Freshmen. Each year has a lot of good material to choose from, but the line-ups have not as yet been announced.

ROOTERS TURN OUT.

The cheer leader of R. V. C. '20 urges that all freshmen attend the first inter-year basketball game on Wednesday, whether they are members of the team or not.

ORDAINED TO PRIESTHOOD.

Rev. Ebur A. Findlay, Arts '15, and a graduate of the Diocesan Theological College, was ordained to the priesthood by the Rt. Rev. Bishop Farthing on Sunday. Rev. Mr. Findlay is a former member of the editorial staff of McGill Daily.

MAJOR WHITE PROMOTED.

A London despatch states that Major Gerald V. White, M.P., Sci. '01, serving with a Canadian Forestry battalion in England, has been promoted to the rank of Lieutenant-Colonel, and given the command of a Forestry battalion.

Gathering ROSE QUESNEL

Native Canadian Tobacco

About 30 days after the tops have been removed the tobacco plants show yellow spots on the leaves and the veins become brittle. The crop is then ready to be harvested and the planter is careful to secure it before any autumnal frost occur, for the plant is among the first to feel its injurious influence. Frost is also required in cutting the plants, and this operation is assigned to the best and most judicious hands employed in the culture. Each person so employed being provided with a strong sharp knife, proceeds along the respective rows of plants, and selects only such plants as appear fully ripe, leaving the rest a short time longer. After being cut, a half dozen leaves are spiked on a stick set in the earth so that the leaves will wilt. This requires from 4 to 5 hours during favorable weather and then the crop is hauled to the drying barn. Particular care is exercised in handling the leaves not to damage or bruise them in any way. It is no wonder then, that tobacco produced by such scientific and improved methods of culture is of such fine texture and color, and possesses such invaluable smoking qualities that it is often taken for imported tobacco. It is this tobacco which enters into the making of

ROSE QUESNEL Smoking Tobacco

MILD AND NATURAL
and which has contributed to make it the finest, smoothest, coolest and most satisfying tobacco on the market. If you have never tried smoking native tobacco, try Rose Quesnel and you will be surprised at its goodness.

Try a package
At all dealers.

ROSE QUESNEL Tobacco is the product of the choicest natural native leaf, properly grown, dried and cured and guaranteed free from artificial flavoring and "liquoring."

It is all tobacco and nothing but tobacco
The Rock City Tobacco Co. Smith

STARR SKATES
MADE IN CANADA—USED ALL OVER THE WORLD

Every pair of "Starr" Skates is unconditionally guaranteed—if they break they will be replaced free of charge by the dealer from whom you bought them or by the makers.

Ask your dealer to show you the "Starr" line and write to-day for illustrated catalogue.

This Tube Hockey Skate is a great favorite particularly where the ice is hard and keen. They are extremely light, very rigid, with blades that are glass-hard—being specially hand tempered by "STARR" secret process. The Starr Manufacturing Co. Ltd. are the largest manufacturers of ice skates under the British Flag and have been making good skates for over 50 years. Their secret process of tempering makes "STARR" Skates supreme in strength and lightness, and hold their "edge" longer.

THE OLD RELIABLE

PEG TOP

5¢ CIGAR

The quality of the Peg Top cigar is remarkably dependable. For over 30 years it has always been the same old-fashioned honest quality cigar. When you get acquainted with Peg Top's quality and flavor you will smoke no other.

THE PEG printed PEG-TO, guarantees its quality. Positively all imported tobacco.

QUALITY MAINTAINED FOR OVER 30 YEARS

OPEN MEETINGS OF STUDENTS' COUNCIL

Christmas Cards to be Sent to McGill Men on Active Service.

Purely routine business was discussed by the Students' Council at its meeting held in the McGill Union last evening. The Literary and Debating Society forwarded an application for an appropriation of \$100 to continue its work during the session, its request being that \$50 be appropriated for expenses in connection with speakers, \$35 for refreshments, and \$15 for stationery. After some discussion, in which D. Clark Hyde, president of the Society, entered, the Council decided to appropriate the sum of \$50 for the Literary and Debating Society, with the understanding that should the success of the Society warrant it a further appropriation be made at a later date. Mr. Hyde and A. S. Lamb, M.D., '17, were the only two outside men present at the open meeting of the Council.

It was reported that nine subscriptions had been received by McGill Daily from the Wesleyan Theological College, and that one subscription had been received from the Montreal Presbyterian College. Subscription rates to be submitted to Macdonald College students were approved on the recommendation of the Managing Board of McGill Daily.

It was decided to forward Christmas cards to all known former McGill men on overseas service. A committee was appointed to inquire into the sending of these cards, which will convey the best wishes of the students of the University to the men on the firing line.

A letter was read from the Red Cross Society, thanking the Council for the proceeds from the English Rugby game between McGill and the sailors in port.

The following were present: Frank B. Common, M.A., president; A. H. Greenwood, Rugby Club; W. B. Galvin, Law; D. C. Smelter, Track Club; W. H. Gerrie, Athletic Association; J. W. Rooney, Hockey Club; S. J. W. Liddy, Science; R. J. Clarke, Arts; H. R. Morgan, McGill Union.

96 C.P. and maintained that the Civil Code must be interpreted by the above article in the Code of Civil Procedure. He proceeded to explain the injustice which would result were International Law to be applied to the case, in which case the husband would be at perfect freedom to continually change his domicile, and then his opponent's interpretation of Art. taking action. He placed supreme importance upon a correct interpretation of Art. 96, C.P., which, he claimed, was the stumbling block.

L. Phillips, first junior counsel for the plaintiff, then substantiated the points laid down by his colleague, and dispelled the importance of Art. 96, C.P., as merely a rule of procedure of the Province of Quebec.

T. P. Dillon, first junior counsel for the defendant, followed up the points introduced by his colleague and senior counsel, and substantiated his assertion by various references to well known authorities and judgments.

Mr. Cloutier, second junior counsel for the plaintiff, emphasized the fact that the parties A and B had no intention of taking up a domicile in Montreal.

Mr. Bridgeman, the second junior counsel for the defense, pointed out that they were not considering a point of equity, and that injustice not remedied by law must be endured. He also referred to judgment which had been rendered in similar cases in the past.

H. E. A. Rose, senior counsel for the plaintiff, then summed up his case quite ably, and submitted it to the consideration of the Judge.

Justice Greenfields withheld his decision for consideration. He commended the students for the able manner with which they handled the case and stated that he had heard very much poorer pleading by full-fledged lawyers. F. W. Hackett then expressed on behalf of the Law Undergraduate Society, thanks to Mr. Justice Greenfields, for presiding at the trial, and moved a vote of thanks to the Judge. Max Bernfeld seconded this motion, which was unanimously carried amidst a burst of applause.

The Court then adjourned, after which refreshments were served as an appropriate climax to a very profitable and enjoyable evening.

One of the most enjoyable features of the evening's entertainment was the remarkable and lifelike manner in which the Clerk of the Court and the stenographers filled their offices.

Frank Bowles, Law '18, rendered a perfect imitation of a Montreal Court Crier, his "Silence" with a French accent being much appreciated.

AMERICAN CLUB SMOKER TO-NIGHT

To Be Held in the Union Reception Room at Eight O'clock.

The first American Club smoker will be held to-night at the Union at eight o'clock, in the Lounge Room. The meeting, while called for the election of vacancies in the club executive, is really to take the form of an informal get-together for the members, or the prospective members of the club. The office of president of the club is to be chosen, as Livingstone, who was elected last year for the post, is not back this year. Plans, which were discussed at the last meeting last year, will again be brought up and some decision reached as to what the activities of the club, and its policies will be for the year. Also, the Annual Thanksgiving Dinner plans have not yet been completed, and these will come in for their share of attention. In addition, a musical programme has been arranged, and the prospects are that some good selections will be rendered throughout the evening. The meeting happens to be on the American election night, and it is very likely that some sort of discussion of the campaign will occur if enough interest is taken. An effort is being made to get the first news that is really indicative as to the trend of the Presidential elections, by wire, every quarter-hour. A new era of the American Club is planned by the executive to take the place of the unsettled policy of the club in former years. All Americans, whether they have been approached by members of the executive or not, are cordially invited to turn out and join in the activities of the club. Any other men at McGill who are not Americans, who either reside in the States or who are interested in the Club and its activities are eligible for membership.

WHAT'S ON

TO-DAY.

1.00 p.m.—Historical Club meeting, Arts Building.

5.30 p.m.—Physical Examination, C. O. T. C.

5.30 p.m.—Rugby Executive meeting at McGill Union.

6.00 p.m.—Railway Club meeting at Union.

7.15 p.m.—Cercle Francaise meeting at Strathcona Hall, Room B.

7.30 p.m.—Orchestra Practice.

8.00 p.m.—American Club Smoker.

COMING.

Nov. 8—Science Undergrad. Society.

Nov. 8—Meeting of Societe Francaise.

Nov. 9—Conservatorium of Music Lecture.

1.00 p.m.—Meeting of R. V. C. '18, Common Room of R.V.C. "The Annual."

5.00 p.m.—Meeting of McGill '18 in Room 33, Engineering Building, "The Annual."

Nov. 10—Arts vs. Medicine, Football.

Nov. 12—Maccabean Circle.

FOOTBALL PRACTICE.

Science and Arts will practice together on Wednesday afternoon at 4.30, on the Stadium. The practice will be the first one that the Science men will have indulged in since their game with Medicine last week, and the manager would like to see every man who is on the team or substituting out on the grounds. For the Arts men, this practice is very important, as they meet Medicine on Friday.

JOINS THE TUNNELLERS.

Lieut. G. Lewis Burland, Sci. '10, well known as an athlete, has left for overseas service as an officer in the Tunnellers of the Canadian Engineers. Lieut. Burland's home is in Ottawa.

McGILL '18 ANNUAL TO BE VOTED UPON

Junior Year Shall be Assembled to Confirm or Defeat Project.

At a meeting of the combined Boards of the '18 Annual last evening the practicability of publishing the book was established. To confirm the decision of the board a general meeting will be called at which the Junior Year shall finally confirm or defeat the project. Two such meetings shall be held.

A meeting of the R. V. C. '18 is called for Thursday at 1 p.m. in the Common Room of the Royal Victoria College, at which all members of the Managing and Editorial Boards are asked to preside.

A similar meeting is scheduled for Friday at five o'clock in Room 33 of the Engineering Building, at which all members of McGill '18 are expected to attend, and at which the combined boards shall preside.

At both meetings the Juniors shall be called upon to sign over a small portion of their caution money to enable the executive to proceed immediately with the necessary contracts.

C. O. T. C. ORDERS FOR WEEK'S DRILL

The Following Orders Have Been Issued by Capt. Simpson.

Battalion Orders No. 6, by Lieut. Col. Robert Starke O.C., McGill University Contingent, C.O.T.C.—

13. Parades.—The Battalion will parade as follows during the week ending November 11th, 1916:—

Tuesday, Nov. 7.—4.30 p.m.—"A." "B." "C." Coy's and Details.

Tuesday, Nov. 7.—7.45 p.m.—"D" Company.

Thursday, Nov. 9.—7.45 p.m.—Battalion.

14. Transfers.—After this date any member wishing to transfer from one company to another must apply in writing to his Company Commander, who will, if he recommends the transfer, forward the application to the Adjutant, when the transfer will be made.

By Order,
J. C. SIMPSON, Captain,
Adjutant, McGill Contingent, C.O.T.C.

INTER-YEAR TENNIS PLAYED AT R. V. C.

Final Matches Were Played in Spite of Bad Weather.

Keen interest has been shown in the Inter-year Tennis Tournament at the R. V. C. this year. In spite of the bad weather, the final matches were played off last week, and the results announced are as follows: The Freshmen, with 124 points, won first place, thereby obtaining the point for the inter-class trophy. The Seniors came second, with 92 points, and the Sophomores and Juniors came third and fourth with 86 and 83 points respectively. The playing throughout was very even, in many cases the score being 9-7, and in one or two cases even as close as 8-8. As usual the teams were comprised of four players, and sixteen games were played. The lineups were as follows:—

Seniors—W. Wyatt, M. Spier, F. Kilgour and D. Hicks, Juniors—M. Muir, L. Fowler, E. Hay and C. Hay, Sophomores—B. Abbott, F. Grindley, A. Wright, F. McLaren, Freshmen—E. Ross, H. Davidson, H. Willard, D. Dart.

(Continued from Page 1.)

Y. M. C. A. in France was receiving over 300 cases a day, containing writing material and other comforts for the men. When the Canadians were transferred from the Ypres salient to the Somme, the Canadian Y. M. C. A.'s preceded the men and had everything in readiness for them when they arrived. The speaker said that you could tell how long a man had been in France just by the manner in which he spoke of the work of the Y. M. C. A. In concluding his remarks, Mr. Ross said that no student need make any apology for asking a man for money to help the Y. M. C. A. work. The chairman called upon "Dad," Lamb to say a few words. "Dad" told the men how to go about the work, and how to get the fellows to come across with the money. Incidentally he said that the seniors in Medicine were going to be the leaders at the end. After the canvasses had received their lists, the meeting broke up, with the singing of the National Anthem, and the McGill Yell.

CAMPBELL'S CLOTHING

A CONSERVATIVE MODEL

We keep this style at all seasons, and show it in some of the best materials in Blues, Solid Greys and Check effects.

Wm. McLAUGHLIN Reg'd
21 McGill College Ave.
Montreal

PROVINCE OF QUEBEC
DEPARTMENT OF COLONIZATION, MINES AND FISHERIES.

The chief minerals of the Province of Quebec are Asbestos, Chromite, Copper, Iron, Gold, Molybdenite, Phosphate, Mica, Graphite, Ornamental and Building Stone, Clays, Etc.

The Mining Law gives absolute security of Title and is very favourable to the Prospector.

MINERS' CERTIFICATES.

First of all, obtain a miner's certificate, from the Department in Quebec or from the nearest agent. The price of this certificate is \$10.00, and it is valid until the first of January following. This certificate gives the right to prospect on public lands and on private lands, on which the mineral rights belong to the Crown.

The holder of the certificate may stake mining claims to the extent of 200 acres.

WORKING CONDITIONS.

During the first six months following the staking of the claim, work on it must be performed to the extent of at least twenty-five days of eight hours.

SIX MONTHS AFTER STAKING.

At the expiration of six months from the date of the staking, the prospector, to retain his rights, must take out a mining license.

MINING LICENSE.

The mining license may cover 40 to 200 acres in unsurveyed territory. The price of this license is Fifty Cents an acre per year, and a fee of \$10.00 on issue. It is valid for one year, and is renewable on the same terms, on producing an affidavit that during the year work has been performed to the extent of at least twenty-five days' labor on each forty acres.

MINING CONCESSION.

Notwithstanding the above, a mining concession may be acquired at any time at the rate of \$5.00 an acre for SUPERIOR METALS, and \$3.00 an acre for INFERIOR MINERALS.

The attention of prospectors is specially called to the territory in the North-Western part of the Province of Quebec, north of the height of land, where important mineralized belts are known to exist.

PROVINCIAL LABORATORY.

Special arrangements have been made with the POLYTECHNIC SCHOOL of LAVAL UNIVERSITY, 228 ST. DENIS STREET, MONTREAL, for the analysis of minerals at very reduced rates for the benefit of miners and prospectors in the Province of Quebec. The well equipped laboratories of this institution and its trained chemists ensure results of undoubted integrity and reliability.

The Bureau of Mines at Quebec will give all the information desired in connection with the mines and mineral resources of the Province, on application addressed to

HONORE MERCIER,
Minister of Colonization, Mines and Fisheries, Quebec.
